my toys, my joys!

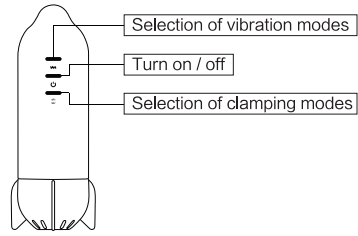

### MyRocket – User Manual

Masturbation cup with clamping, suction and vibration functions

### Features

- Soft silicone sleeve for more intense and warm wrapped sensations
- 7 powerful clamping functions and 7 vibration modes
- Two motors to stimulate the glans and shaft of the penis
- Strong vacuum airbag for deep clamping and tight massage sensations
- Perfectly sized with a penetration depth of up to 12.5 cm
- USB rechargeable

### Operation

- Please press the button for 2.5 seconds to turn on the product, while the unit will automatically enter the clamping mode.
- Press the button to cycle through the different vibration modes.

- Press the button to cycle through the different clamping modes. Shortly pressing the button will stop the clamping motor and it can be restarted by shortly pressing the same button again.

**Tip:** The vibration and clamping motors can run at the same time.

### How to clean

The "MyRocket" masturbation cup is made of silicone material which not only wraps the penis in an intense and warm canal but it can also be easily cleaned.

**Tip:** Please rinse it directly under the tap and keep it afterwards in a dry and cool place.
