Ditto+

Vibrating anal plug

Rechargeable vibrating anal plug with app control.

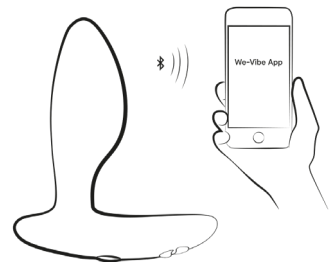

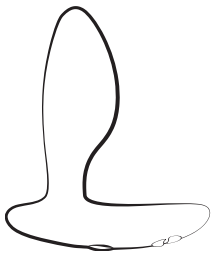

What is it

Ditto+ is the quintessential anal plug, a small yet powerful vibrator with a smooth, tapered head for easy use and targeted pleasure. Coated in soft silicone, waterproof and rechargeable, Ditto+ does everything you need it to – and adds another layer of pleasure for every body type.

Who it's for

Ditto+ is aimed at couples looking to spice things up and add an extra dimension to their repertoire. They have likely been together for a while and share a desire to explore new sexual heights together. Our customer(s) may have tried sex toys before and is looking for something new.

How to play

1. Apply a water-based lube to the head of the toy and slide it into the anus. If this feels difficult, try wiggling the toy gently – like slowly shimmying into a pair of jeans. If you have any pain or discomfort during insertion, don't force it. That will only cause your body to tighten up more. Relaxing into it is key.
2. With the toy inserted, rotate it until it feels comfortably in place, resting against the prostate (if you have one).
3. Turn the toy on by pressing the control button on its base.
4. Cycle through different vibration pattern modes and intensity levels by using the control button on the toy, the We-Vibe remote control, or the We-Vibe app.

How to control

Ditto+ can be controlled in three ways.

Firstly, with the simple, single control button on the base of the toy, which turns the toy on and off (long press) or cycles between different vibration pattern modes and intensity levels (short press).

Secondly, the We-Vibe remote is an easy, intuitive way to use your toy.

Thirdly, Ditto+ can also be controlled by the We-Vibe app. Enjoy pleasure over any distance. Both you and your partner download the We-Vibe app to your smartphones. Add your partner to share control with an invite from the app.

How to demo Ditto+

- 1** Introduce Ditto+ to the customer, explaining that it's a vibrating anal plug with premium features.
- 2** Demonstrate Ditto+'s smooth curves, designed to comfortably fit to the natural contours of any body.
- 3** Note the base of the plug and the smooth silicone which make Ditto+ both super-safe and easy to insert and remove.
- 4** Turn the toy on using the control button, pressing it again to cycle through the different vibration pattern modes and intensity levels. Hand Ditto+ to the customer and have them feel the vibrations in their hands, noting how quiet the toy is.
- 5** Note that Ditto+ is **100% waterproof** and can be used underwater.
- 6** **Bonus:** If time permits, pair Ditto+ with the We-Vibe app and demonstrate how the vibrator can be controlled over a room or across a continent for distance play. Otherwise, just describe the app's functions.
- 7** **Highlight We-Vibe quality** — body-safe, rechargeable, 2-year warranty.

What testers say

"Ditto+ is a truly well-made toy – everything about it, from the slick silicone to the durable battery just screams quality."

"I had never tried anal play before, but Ditto+ is so non-threatening and easy to use that it persuaded me to give it a go... I'm so glad I did! I never thought that I could enjoy an anal vibrator so much, it's such a different feeling and so easy I wish I'd started sooner!"

"My partner and I love playing with the app, sending each other vibrations when we're apart for work trips really helps to add spice over distance."

"I wouldn't have expected so much power to come from such a little toy. The different vibration modes are awesome, you can really play around with the varying strengths."
