Rave 2

G-spot vibrator

Silicone, rechargeable and waterproof G-spot vibrator with app compatibility.

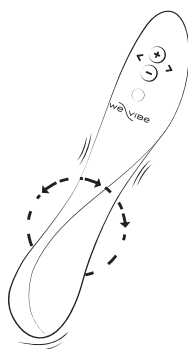

What is it

We-Vibe Rave 2 is designed for pure pleasure, targeting the G-spot and vaginal opening with satisfying vibrations for an intense climax. Its twisted pleasure shape, smooth silicone and adjustable fit ensure an unforgettable experience.

Who it's for

Rave 2 is aimed at modern, metropolitan couples who are open and outspoken about their sex life. They have likely been together a while and share a desire to explore new sexual heights together. Our customers may have tried sex toys before and are looking for something new. While our focus is on couples play, Rave 2 is also an excellent masturbatory aid.

How to play

1. Apply a water-based lube to the head of the toy and slide it into the vagina.
2. With the toy inserted, rotate it until it feels comfortably in place – stay curious and experiment with what feels best for you.
3. By twisting the toy, the bulbous head with its pleasure edges is in constant contact with the G-spot, continually massaging the area.
4. The adjustable hinge allows to adjust the angle of the toy, to put the right amount of pressure on the G-area.
5. Turn the toy on by pressing the control button.
6. Cycle through different vibration pattern modes and intensity levels by using the + and - buttons on the toy, or using the We-Vibe app.

How to control

Rave 2 uses simple, intuitive controls on the toy itself, and can also be controlled by the We-Vibe app. Enjoy pleasure over any distance. Both you and your partner download the We-Vibe app to your smartphones. Add your partner to share control with an invite from the app.

Product and USP descriptions

Adjustable fit

Rave 2's flexible design allows you to choose the best angle for your unique body to stimulate your G-spot perfectly.

Dual stimulation

Rumbly, deep vibrations, customizable to your preference, stimulate the G-spot and vaginal opening and let you experience a mind-blowing orgasm (dual motors that can be controlled separately).

Unique shape

The asymmetrical grooves of Rave 2 transform gentle movements into ecstatic pleasure. Simply twist the toy and the soft edges together with the powerful rumbly vibrations deliver intense sensations right where you want them.

App-Enabled

The free We-Vibe app allows you to fully surrender and let your partner control the toy, whether you are in the same room or across the globe.

How to demo Rave 2

- 1** Introduce Rave 2 to the customer, explaining that it's a G-Spot vibrator with premium features...
- 2** Demonstrate Rave 2's unique pleasure curves, designed to massage the G-Spot and sensitive vaginal opening.
- 3** Turn the toy on using the control button, then use the + and – buttons to cycle through the different vibration pattern modes and intensity levels. Hand Rave 2 to the customer and have them feel the vibrations in their hands, noting how quiet the toy is.
- 4** **Note that Rave 2 is 100% waterproof and can be used underwater.**
- 5** **Bonus:** If time permits, pair Rave 2 with the We-Vibe app and demonstrate how the vibrator can be controlled over a room or across a continent for distance play. Otherwise, just describe the app's functions.
- 6** **Highlight We-Vibe quality** — body-safe, rechargeable, 2-year warranty.

Note that Rave 2 is available in two new colors: **Bold pink** and **Muted blue**

What testers say

„I had never tried a G-Spot toy before, but Rave 2 is so smooth and fun to play with that I was seduced... The orgasm I had with it was unlike anything I'd experienced before... I squirted for the first time ever!”

“Rave 2 doesn't look like it's going to be so powerful, but appearances can be deceiving... This unassuming-looking vibrator is somehow just shaped in a way that makes your G-Spot scream with pleasure!”

“Waterproof, rechargeable, top quality silicone... all that good stuff is nice to have, but let's talk about the ORGASM it gives you! I don't think I – or my neighbors, for that matter – are going to forget about that any time soon.”

“I'd tried G-Spot toys that were used in a pushing movement, but now I've experienced the T W I S T I'll never go back. The vibrations never lose contact with your G-Spot so it's truly intense.”
